## THE WAR IN CHINA.

Gloomy Outlook for the Consuls in  
the City of Peking.

### ALL ARE PRISONERS.

Nothing Heard from Them in Three  
Days and the Worst Is Feared.  
More Troops Necessary to  
Force Entrance in City.

Shanghai, June 16.—The situation at  
Peking, as far as can be learned, is more  
serious. All members of the foreign  
legations in Peking are virtually prison-  
ers and the Chinese troops are only re-  
strained from attacking them by fear of  
the legation guards. The ministers are  
unable to communicate with the officers  
commanding the relief column, which is  
making an enforced and isolated halt  
between Tien Tsin and Peking.

The walls of the capital are guarded  
by 100,000 imperial troops, and the gates  
are heavily defended with modern guns.  
General Tung, acting under orders from  
the empress dowager, says that no more  
foreign troops shall enter the sacred  
city.

The ministers demand that the gates  
be opened, declaring that otherwise the  
foreign troops would enter forcibly in  
unanswered.

A second message has been sent.  
Russia, notwithstanding assurances to  
the contrary, sides with China. Some  
of the consuls are already reported to be  
in the environs of Peking, and the attitude  
of the Chinese troops is increasingly men-  
acing.

The streets of Peking are reported to  
be seething with anti-foreign mobs,  
clamoring for the destruction of the lega-  
tion and the death of the foreign min-  
isters. Even were the tsungli yamen  
disposed to restrain the violence of the  
reactionaries, it is considered highly im-  
probable that they will be able to hold  
them in check. For the foreign ministers  
the crisis will arise when the relief col-  
umn is in sight of Peking.

The foreign force is wholly inadequate  
to battle with the hordes of Chinese  
troops massed outside the gates, which  
now include the imperial troops from  
Shan Hai Kwan.

A disquieting element in the situa-  
tion is the fact that, although the Rus-  
sio-Chinese telegraph line from Peking,  
via Ksakhly (Eastern Siberian) is work-  
ing again, the transmission of messages  
is rigidly refused.

From Tien Tsin it is reported that for-  
eign forces in the harbor will attack the  
Taku forts and if necessary bombard  
them.

The international column appears  
to be still at Lang Fang, engaged in  
slowly repairing the railway, which can-  
not be effected for weeks. The force is  
short of provisions, without field trans-  
port and must stick to the railway.

The report that the mixed forces will  
seize the Taku forts is taken to mean  
that the foreign commanders expect no  
aid from the Chinese government in re-  
pressing the disorders and are deter-  
mined to make Taku secure as a base  
from which to operate.

### ATTACKS BEGUN.

Churches Burned by Incendiary Fires in  
in Parts of Peking.

Shanghai, June 16.—Advices from  
Tien Tsin report large incendiary fires  
occurred in the eastern part of the city  
Friday night, where three English and  
American churches were burned, besides  
the residences of many foreigners.

Telegraphic communications are inter-  
rupted, the poles having been burned  
and there is no hope of immediate re-  
pairs being made.

The train conveying the relieving par-  
ty with food and ammunition has been  
obliged to return, being unable to reach  
Lang Fang, where detachments of for-  
eign troops are now endeavoring to re-  
pair the line.

### WORSE AND WORSE.

Reports Say Converts and Servants Are  
Being Murdered by Chinese.

London, June 16.—What with the re-  
ports are coming through Tien Tsin that  
boxers have massacred a number of  
native converts and servants of foreign-  
ers in the eastern portion of the city of  
Peking, besides burning the Catholic  
cathedral at Peking, the situation in the  
far east appears perceptibly graver. To  
add to the difficulties comes the news  
that telegraphic communication between  
Shanghai and Tien Tsin is totally in-  
terrupted. Consequently the prevailing  
uncertainty as to facts and the possibi-  
lities of the position will be accentuated.

It is generally recognized now that  
the position of foreigners at Peking is  
perilous as there is but a short step from  
the massacre of servants of foreigners to  
the killing of foreigners themselves.

"If a massacre is averted," says The  
Spectator, "and the palace reduced to  
seeming obedience, the greatest difficul-

ty will be to decide on the next step.  
The powers can neither encamp perman-  
ently in Peking nor leave until it is es-  
tablished that the government is pre-  
pared to respect international obliga-  
tions and able to hold China together.  
If anarchy breaks out in China the ob-  
ject of the powers is defeated. The  
failure or success of the present effort  
may involve a series of wars of which  
no man can see the end."

Continuing, The Spectator suggests  
that egress from present impasse must  
be found in the appointment by repre-  
sentatives of the powers of a competent  
vizier, as so often been successfully done  
in other eastern countries, otherwise a  
hideous calamity may befall China.

Commenting upon the supposed hesi-  
tation of the United States to actively  
participate in the movement to suppress  
the boxers, as is reported in cable dis-  
patches from Washington. The Statist  
says:

"No European power will misunder-  
stand the present hesitation of the  
United States and jump at the conclu-  
sion America is feeling and the opinion  
may be disregarded. The United States  
will undertake military operations in  
China as it did against Spain if protec-  
tion of its citizens require them, or if  
the powers threaten to exclude Ameri-  
can merchants from their rights in  
China, acquired by the treaty. Unless  
British ministers muddle matters Great  
Britain can reckon on the assistance of  
the United States and Japan in main-  
taining, even by force, the policy of the  
open door in China."

### THE TERRIBLE SAILS.

She Goes to Tien Tsin and Will Land  
Naval Guns There.

Hong Kong, June 16.—The British  
firstclass cruiser Terrible, with troops,  
has sailed for Tien Tsin. Captain Per-  
cy M. Scott of the Terrible, previous to  
sailing, arranged to land a 12-pounder  
and other of the ship's guns for land  
service.

The British firstclass armored cruiser  
Undaunted was suddenly ordered north  
under sealed orders and she sails imme-  
diately.

Trouble is brewing near West river;  
riots have broken out at Panchow,  
whence over 100 refugees from Fu Chow  
on June 12.

About 5000 rebels have assembled at  
Kwei Li Sien. Bodies of troops passed  
through Wu Chow on June 11 on their  
way to meet the rebels.

### MORE TROOPS TO GO.

United States Changes its Policy in Re-  
gard to Troops in China.

Washington, June 15.—Nothing has  
come to the state department from  
United States Minister Conger at Peking  
since last Tuesday evening and the offi-  
cials have settled down to the belief that  
not until the foreign relief column  
reaches the Chinese capital will Min-  
ister Conger be able to resume the use of  
the cable. It is ominous that nothing  
has been heard from the United States  
consul at Chin Kiang since his first  
official appeal for sending a warship to  
that point and it may be that he has  
been isolated. The consul at Che Foo is  
in a better position, for a cablegram re-  
ceived at the navy department an-  
nounces the arrival of the gunboat York-  
town at that point. The vessel proba-  
bly will lie at Che Foo awaiting orders.  
It is within a few days sail of Taku and  
can be summoned by Admiral Kempff if  
he needs reinforcements at short notice.  
It is probable, however, that the York-  
town will serve a better purpose by  
remaining in the vicinity of Che Foo as  
the boxers are reported to be active in  
that section of Shang Tung. Admiral  
Remy cabled the navy department as  
follows:

"Cavite, June 15.—At Kempff's re-  
quest I shall send the Iris about the 20th  
with coal and stores for 900 for three  
months."

The Iris is a big collier and distilling  
ship. Nine hundred mentioned is the  
complement make up the personnel of  
the flagship Newark and Monocacy now  
on the way to Taku and the Yorktown  
at Che Foo with the marine contingent  
ashore in China.

The significant feature of the message  
was in the indicated opinion of Admiral  
Kempff that the disturbances in China  
may be expected to last several months  
at least.

It seems probable that all the troops in  
the Philippines will be called upon to  
furnish a contingent to assist in the re-  
scue of the foreign missionaries in China  
and in the protection of the foreign em-  
bassies and legations, as a great change  
has come over the administration in this  
regard, for as late as Thursday there  
was a firm determination not to go be-  
yond the employment of the marines  
and sailors.

It is now realized that the small force  
now engaged is entirely disproportion-  
ate, when compared with the foreign  
contingents to the interests and duty of  
the United States. The newspaper re-  
port that Chinese imperial troops who  
are opposing the passage of the relief  
column has given great concern and  
without doubt had as much to do with

The dry weather has come but no movement has yet been inaugurated for the improvement of the roads leading to Bryan.

The hot weather demands a rigid enforcement of sanitary measures. Cut the weeds, and keep the streets, alleys and sewers clean.

Vote for the street improvement bond issue Tuesday. Don't neglect going to the polls. Bryan is on the up grade, keep 'er goin'.

North Texas is shipping large quantities of Irish potatoes to the northern markets. Two hundred car loads will go from Lamar county. Texans are learning to send things out of the state instead of eternally sending out of the state for things.

The demand for a chemical and veterinary laboratory was apparent to all who visited the A. and M. College for the commencement exercises. The space allotted to these primarily important departments now is wholly inadequate to the demands of their work, and a new building is a pressing necessity for which it is hoped the next legislature will make ample provision.

## WILLING TO ARBITRATE.

Gompers Induces Street Car Strikers to Change Their Attitude.

St. Louis, June 15.—By a practically unanimous vote the local union of street railway employees of the Transit company out on a strike decided to submit the matter of reinstatement of employees to arbitration. By the same vote the executive committee of the union was empowered to negotiate with the company and make a final settlement without referring the matter back to the union. This action was brought about through the influence of Samuel Gompers, president of the American Federation of Labor, who was present at the mass meeting.

J. J. Hohan, who came here from Chicago to work for the Transit company, was probably fatally shot by Sylvester Suleff, a fellow employee. The two men were in the sheds of the Union line at Kossuth and Obar streets. Suleff, who claims the shooting was accidental, was arrested.

The coroner's inquest on the killing of Edward Thomas and George Rine and inquiring into the wounding of Edward Burkhardt, Oscar Marvin and John White, streetcar strikers, who were shot by special deputy sheriffs near the posse barracks on Washington avenue Sunday was resumed.

A number of witnesses testified and most of them coincided in saying the strikers were orderly and apparently carried no arms.

A car on the Baden avenue line was badly wrecked at the intersection of Broadway and Gimblin avenue. The front wheels were shattered as was also the motor and the car raised several feet from the track. The conductor was badly bruised in the lower limbs. The carried no passengers.

## Permit Revoked.

Austin, Tex., June 16.—State Insurance Commissioner Jefferson Johnson has issued an official notice revoking, canceling and annulling the certificate of authority to do business in Texas granted the Provident Savings Life Assurance Society of New York on March 1, 1900. This action was taken by Commissioner Johnson because the company refused to allow an examination made of its affairs by Mr. Thweatt, an examiner of the Texas insurance department, who is now in New York. This company has a large Texas business, which it will be forced to abandon under the order. It has over \$200,000 invested in buildings in Fort Worth and Waco.

## Cases Against the Walls.

Nacogdoches, Tex., June 16.—The cases against Eugene Wall and father, Buck Wall, and two brothers, Brunn and Pleas Wall, who are all here in custody charged with the murder of Ben Brooks in San Augustine two weeks ago are to be heard by Judge T. C. Davis at Rusk on next Tuesday. The prisoners are to be taken over to Rusk next Monday. A large number of witnesses from San Antonio will be required to attend.

## Charges Against an Officer.

Tucson, A. T., June 16.—Sam Finley, a well known politician and ex-city marshal of Tucson, has been arrested on a charge of attempted assault to commit murder. His arrest grows out of the recent jail breaking at Tombstone in which train robbers escaped and Deputy Sheriff Bravy was shot. Finley denies all complicity in the jail breaking.

## Farmers' Alliance Meeting.

Corisiana, Tex., June 16.—While it was settled some time ago by the executive committee of the Farmers' State Alliance that the meeting of that organization this year would be held at or near Nacogdoches, but the exact date was not fixed. It has been decided that the meeting will be held on the first Tuesday in August at Nacogdoches and continue three days.

## Germans to Vote for Bryan.

New York, June 16.—Oswald Otten-dorfer, editor of the Staats Zeitung, reviewing the political attitude of German-Americans, says they have been betrayed by McKinley. They are in dread of the uncertainty of a silver victory, but in the imperialistic principles of the Republicans they see greater danger, therefore they will cast their votes for Bryan.

## Train Demolishes a Streetcar.

Hutchinson, Kas., June 16.—A Santa Fe freight train ran into and demolished streetcar at the Main street crossing here, killing Mrs. J. C. Patten, Mrs. William Burtch and Mrs. G. Kown. Mrs. Edward White, Mrs. J. H. Glasscock and Mrs. Daniel Conklin were seriously injured.

## Oil in Bell County.

Temple, Tex., June 16.—Reports from the oil fields west of Temple, where local capitalists are boring an experimental well, indicates there will be strike soon. A small quantity of oil in seams has already been found, and the hole is only 150 feet down.

## No Mercy for Spears.

Austin, June 16.—The governor refused to grant the application for commutation of the sentence (death penalty) of Sid Spears, who was convicted at the April term, 1899, of the district court of Grayson, for the murder of his wife.

## Yellow Fever at Aquemados.

Washington, June 15.—Yellow fever has broken out at Aquemados, eight miles from Havana, where United States troops are stationed. Thus far there has been 14 cases, three of which proved fatal.

## The Lamp Exploded.

Enreka Springs, Ark., June 16.—Miss Zoni Harvey, formerly engraving clerk of the state senate, was fatally burned here by the explosion of a coal oil lamp over which she was heating a curling iron.

## BENEFICIAL TO TEXAS

Road from Kansas City Through Texas and Mexico to Pacific.

## TO OPEN NEW FIELDS

Its Building Will Bring Cattle Closer to the Markets and Places Texas Nearer the Pacific by Hundreds of Miles of Road.

Baltimore, June 16.—In discussions of the developments of the south attention is frequently directed to the older portions of the south to the neglect of the region west of the Mississippi river, thoroughly identified geographically with the south and destined to become an enormous contributor to the southern wealth. Industrial, commercial and transportation enterprises are, however, being pushed there, and plans for others are well under way. Among the latter is the projected Kansas City, Mexico and Orient railway, the construction of which will mean the opening of new territory in the south and a new route to the Pacific for cotton goods and other southern products. This is shown in an outline of the plan published this week in the Manufacturers' Record.

This line, starting at Kansas City, where it would have close connection to Chicago and the northwest generally, is expected to pass through Kansas, through the center of Oklahoma, and entering Texas near Quanah, go through Sweetwater, San Angelo and enter Mexico about halfway between Eagle Pass and El Paso, and thence almost in an air line to Topolobampo, now changed to Port Stillwell, on the gulf of California.

From Kansas City to Wichita the distance will be about 200 miles. This portion of the line between Kansas City and Wichita, as well as that south of Wichita to the Rio Grande through Oklahoma and Texas, traverses what is said to be about the finest of the agricultural and grazing region in the southwestern country.

In Osage county, Kansas, the line will pass through extensive coal fields 65 miles from Kansas City. It will bring the cattle grazing districts of western Oklahoma, western Texas, southwestern New Mexico and Mexico to Kansas City market by a much shorter haul than any any road in existence. In effect it will be an air line direct to all that vast section, now the great cattle grazing region of the United States.

From the Rio Grande to the city of Chihuahua, a distance of 150 miles, the road follows the Concho river, passing through an extensive grazing and mineral region. Chihuahua, with its population of 30,000, is one of the important cities of Mexico. Its commercial and mining interests, already large, would be greatly developed by the building of this line.

About 50 miles east of Chihuahua the line would pass through a region of semi-anthracite coal with a 7-foot vein. Owing to the lack of transportation this coal has never before been utilized, but the scarcity of coal in Mexico would make its development of great commercial importance.

Between Chihuahua and the Puerto river this line will traverse what is claimed to be the finest mineral country in Mexico—a region that when opened up by transportation will, it is thought, rival the Leadville and Cripple Creek district of Colorado. There is then a stretch of 150 miles of longleaf pine, which estimated will cut 8000 to 12,000 feet to the acre. Along the valley of the Puerto river to Port Stillwell there is a fertile region where sugar, coffee, cotton, tobacco and fruits yield abundantly, and within 50 miles of Port Stillwell a large deposit of coal.

All of these points as to the undeveloped wealth of Mexico, however, are not the essential things so far as the south is concerned, except that they furnish the basis for the construction of a road which, in addition to opening up the southwestern region through Oklahoma and Texas, will furnish a direct line to the Pacific coast by a much shorter route than any now in existence. A study of the map will show that this road will reach the Pacific coast by a line 500 miles shorter than any other from Kansas City to that coast.

It will thus give to a vast stretch of country in the south a short direct route to the Pacific coast, and should the Chocataw, Little Rock and Memphis or other southern roads extend to a connection with this line, as they will likely do, there will then be a direct line to Memphis, and even from the central cotton and cotton manufacturing districts of the south, to the Pacific at Port Stillwell. By this road St. Paul, Minn., would be the same distance from Port Stillwell that it now is from the Pacific at Portland, while, as stated, Kansas City will be 500 miles closer to the Pacific than now, and as Port Stillwell is on the same parallel as the Sandwich islands and Hong Kong, there would be a shorter ocean haul in addition to the saving of railroad transportation. Port Stillwell is about 1200 miles from Galveston, less than 1500 miles from New Orleans, and is 700 miles nearer to New York than is San Francisco.

Courthouse Burned.

Edna, Tex., June 16.—The courthouse here has been destroyed by fire. The origin of the fire is supposed by many to have been incendiary. The records and furniture were all destroyed except those in the vaults.

## HAWLEY FACTION WIN.

His Delegates Declared to Be Entitled to Seats in Convention.

Philadelphia, June 16.—The committee devoted last night's session to the hearing of arguments in the seven contests from Texas, including two delegates from the state at large and the first, fourth, fifth, sixth, seventh and ninth districts. In a general way the controversy throughout the state was over the question of the selection of a member of the national committee. This position is now occupied by Dr. John Grant, while E. H. R. Green and Representative Hawley are both credited with aspirations to fill the office. Technically, the fight involved the regularity of the various conventions, state and district. In the case of the state convention both sides claim regularity.

The hearing was begun on the first district. Mr. Hawley spoke for his side and W. W. Dudley represented the Greene delegates. Mr. Hawley made a vigorous plea for what he called "decent Republican politics in Texas" which he said was represented in the claimants that he represented. With but little discussion the Hawley delegates were selected.

The fourth and fifth districts in which there were contests, were passed over and the committee began the consideration of the sixth district. The committee decided that neither delegation was entitled to seats and the districts will not be represented on the temporary roll.

In the seventh district C. A. Boynton and J. H. Childs, Hawley delegates, were seated.

The committee decided the contest from the nineteenth district of Pennsylvania between J. L. Hill, Jr., of Cumberland and James A. Dale of York. Mr. Hill won.

Philadelphia, June 16.—The Republican national committee began business today by taking up the contest from the Norfolk district in Virginia. In this district ex-Congressman George K. Bowden and William S. Holland claim to be the regular delegates, while this honor is contested by H. H. Hawley and Aloah H. Martin. The committee decided in favor of the Bowden delegates.

During the hearing Senator Quay came into the committee room and received quite an ovation.

The committee decided to reconsider the decision in the case of the Fifth district of Mississippi.

The contest from the Fifth Texas district was decided in favor of the Green delegates, W. H. Love and George A. Knight, who were opposed by Cecil A. Lyon and C. A. Gray. The decision was given to the Green men on the ground of regularity.

The Green delegates also were seated in the Ninth district.

The subcommittee appointed to investigate the Delaware contest concluded to recommend neither the Addicks nor the Dupont delegates be placed upon the temporary roll of the convention.

McLean Helps Bryan's Campaign.

New York, June 16.—According to a local paper, John R. McLean, who is in this city, en route for Europe, has sent a personal check for \$25,000 to W. J. Bryan to be used in the campaign. This check was sent, it is said as an evidence of good will and to offset any bad effect of the misconception of his trip to Europe. The information about the big check, the paper says, is positive, coming only secondhand from Mr. McLean.

## DISOBEYED ORDERS.

Lieutenant Commander Colville under the Ban Pending Investigation.

New York, June 16.—A special dispatch to the Herald from Washington says: Lieutenant Commander J. C. Colwell just relieved as American naval attaché in London, is under investigation for failure to obey orders of the navy department. A court of inquiry of which Captain F. A. Cook and Medical Director C. H. White are members is sitting for that purpose in the Washington navy yard.

Lieutenant Commander Colwell had received orders to report on a certain date in the United States preliminary to going to the Philippines. He failed to report, and sent an explanation that in consequence of an operation that it was inadvisable for him to travel. It is argued that he placed himself under medical treatment in order to justify his action.

The department believed that Lieut. Commander Colwell had tried to get out of his orders so as to remain longer in London. The court is expected to submit its findings in a few days.

## Congressman Hoeffcker Dead.

Dover, Del., June 16.—Congressman Henry Hoeffcker, the only representative in the lower branch of the national legislature from Delaware, who is said to have been the only Republican both factions of the party could agree upon for such a position, dropped dead in Smyrna.

## Troops Joining Boxers.

Shanghai, June 16.—According to information received here from foreign sources 10,000 imperial troops, which were between Peking and the international forces, advancing on that city, have disbanded and joined the boxers. It is asserted that the government of China does not consider itself responsible for any encounter which may take place.

## May Dispatch a Fast Vessel.

Washington, June 16.—Unless telegraphic communication with Admiral Kempf is restored speedily a fast vessel will be ordered from Manila to Taku for news.

## Nothing Heard at Washington.

Washington, June 16.—Nothing has been heard here from an official source to confirm the alarming reports of the destruction of embassies and legations in Peking and in view of the fact that the government itself is not able to open communication with the scene of trouble, officials are inclined to doubt whether a private concern could do more. In other words, they do not believe the reports. Minister Wu of the Chinese legation here declared he was without any advice from his own government.

## Son-in-Law of Ledyard.

Detroit, June 16.—Baron Von Ketteler, German minister, China, reported killed in boxer riots in Peking, is a son-in-law of Henry B. Ledyard, president of the Michigan Central railroad. He married Miss Ledyard in 1891.

## DEADLOCK RELIEVED.

The Trouble in Cape Colony Is Reported to Be at an End.

London, June 16.—The only South African news of importance is a telegram from Cape Town announcing the ministerial deadlock relieved. Sir John Gordon Sprigg believes Rose Innes will accept the portfolio.

A dispatch from Laings Nek says General Christian Botha's next stand will be at Paardekop, but with a reduced force.

The German ambulance captured by General Buller has been sent to Durban whence it will be allowed to return to the Transvaal via Delagoa bay.

The war office has received the following message from General Roberts: "Pretoria, June 16.—Rustenburg occupied yesterday by Baden-Powell. A column starts from this place tomorrow to meet Baden-Powell and repair the telegraph line between Pretoria and Rustenburg. Hunter is moving from Potchefstroom. His advance brigade expects to reach Johannesburg on June 16."

## West African Natives Rising.

Bathurst, Gambia Colony, West Africa, June 17.—A native rising has occurred in Gambian Colony and two British prisoners and six members of the police have been killed at Sakanandia on the south bank of Gambia river by Mandigoes.

## Broke Two Records.

New York, June 16.—In a private trial at Berkeley Oval, Walter W. Smith, a young member of the Kings county whelmen of Brooklyn, broke two world's amateur cycling records, paced by a motor cycle. Smith made a half mile, with a flying start in 1:45 and a mile in 1:28. This laps 4 1/2 seconds from the former motor, paced a flying start record of 1:33 3-5 made by A. W. Ross at Washington, D. C., on November 23, 1899, and one half a second from the former half mile record of 45 1/2 made by George Fuller at San Jose, Cal., on Dec. 3, 1899.

## Huntington Secures Control.

San Francisco, June 16.—By the purchase of the Hopkins-Searls stock, C. P. Huntington acquires the last of the holdings of the original interests in the Central and Southern Pacific combination. The price paid is estimated at over \$9,000,000. By the latest purchase of 280,000 shares of stock Huntington is said himself to hold 1,260,000 shares of total 2,000,000. Some 500,000 shares or more or held by former stockholders of Central Pacific. The remaining shares, about 90,000, are in various hands.

## Mexico Quarantines.

El Paso, Tex., June 16.—The Mexican government has declared quarantine on the frontier against San Francisco. Hitherto passengers for Mexico refused admission into Texas, have left the train in New Mexico and hired private conveyance to Juarez, Mex.

## Fatal Duel.

Dragoon, Ariz., June 16.—Johnsonville, was the scene of a fatal battle between two Mexicans. One is dead, the other may die. Deputy Sheriff Mulkey, while trying to arrest them received several wounds and is probably fatally shot.

## Will Extend to Sherman.

Sherman, Tex., June 16.—The St. Louis, San Francisco and Texas road will be extended from Denison to this place. The general offices will be moved here.

## Kansas City Rates.

Kansas City, June 16.—The Southwestern Passenger Bureau has made a one fare rate from points in Texas, Oklahoma and Indian Territory to the Democratic national convention in July.

## Still in the Race.

Washington, June 16.—Admiral Dewey says there is no truth in the report that he has abandoned the race for the nomination for president.

## Cadet for West Point.

Washington, June 16.—Emmett E. McInnis of Sherman, Tex., has been appointed a cadet to West Point.
